

## Official bzd branches to be imported into git

These branches are listed in the importing order (later imports preserve older shared commits):

<i>bzd branch</i>	<i>git branch</i>
squid3/5	master
squid3-old/branches/cbdatahistory	cbdatahistory
squid3/3.0	v3.0
squid3-old/branches/SQUID_NT_3_0	SQUID_NT_3_0
squid3/3.1	v3.1
squid3/3.2	v3.2
squid3-old/branches/mswin	mswin
squid3/3.3	v3.3
squid3/3.4	v3.4
squid3/3.5	v3.5
squid3/4	v4.0

All other bzd branches in the official repository, all of which should be listed in various sections further below, will *not* be imported into git.

## Skipped tags

These tags do not belong to any imported branch and, hence, are not imported:

<i>path</i>	<i>branch</i>	<i>rev</i>
squid3-old/tags/Z-bug2k_merge_HEAD	master	8321
squid3-old/tags/Z-cbdatahistory_merge_HEAD	master	5863
squid3-old/tags/Z-logdaemon_merge_HEAD	master	8865
squid3-old/tags/before_cbdatahistory	master	5869
squid3-old/tags/unify_io_post	master	5952
squid3-old/tags/unify_io_pre	master	5951
squid3-old/tags/POST_BodyPipe	master	8071
squid3-old/tags/POST_FIX_RANGES	master	6000
squid3-old/tags/PRE_BodyPipe	master	8065
squid3-old/tags/PRE_FIX_RANGE	master	5997

squid3-old/tags/Z-SQUID_NT_3_0_merge-old_SQUID_3_0	v3.0	8714

## Duplicate branches

<i>branch</i>	<i>copy of</i>
squid3/branches/SQUID_3_0	squid3/3.1
squid3/branches/SQUID_3_1	squid3/3.2
squid3/branches/SQUID_3_1	squid3/3.3
squid3/trunk	squid3/4

## Backup copies

Skip all squid3-2a/\* and squid3-1.14/\* paths since they are copies of squid3-old/\*.

## Backup branches

These branches are backups of their “primary” branch at a specific revision:

<i>branch</i>	<i>primary branch</i>	<i>last rev</i>
squid3-old/branches/SQUID_3_0	v3.0	9198
squid3-old/branches/SQUID_3_1	v3.1	10470
squid3-old/branches/SQUID_3_2	v3.2	11661
squid3-old/trunk	master	12319

## Squid1 and Squid2 branches

Skip v1 and v2 branches because their bzd copies are not authoritative:

squid3-old/branches/SQUID\_1\_0  
 squid3-old/branches/SQUID\_1\_1\_branch  
 squid3-old/branches/SQUID\_1\_NOVM\_2  
 squid3-old/branches/SQUID2  
 squid3-old/branches/SQUID\_2\_0  
 squid3-old/branches/SQUID\_2\_1  
 squid3-old/branches/SQUID\_2\_2  
 squid3-old/branches/SQUID\_2\_3  
 squid3-old/branches/SQUID\_2\_4  
 squid3-old/branches/SQUID\_2\_5

## Partially merged developer branches discarded with developer permission

squid3-old/branches/alex  
 squid3-old/branches/alex\_2

## Bzd housekeeping directories
